

yellowpencil sharpenings

oops!

We just want to apologise for some wrong information in our recent August newsletter that we sent out this morning. To be absolutely blunt **WE MADE A MISTAKE** in referencing the percentages of colours used in the worlds top brands.

You may have realised already that the percentages would not add up to anyone but a European banker so in the meantime please ignore that story entirely.

We'd also like to take this opportunity of thanking the five thousand* people who pointed the mistake out to us.

** A slight exaggeration*
